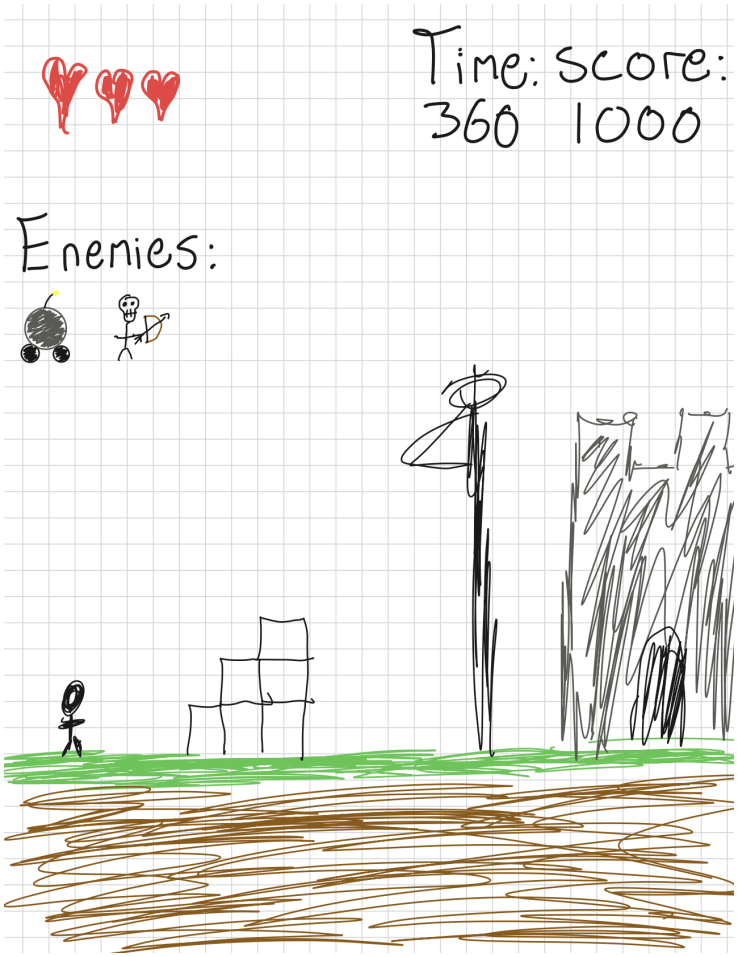
Title:
2D Platformer Fun!

Members:
David Acuña and Luis González-Xochihua

Description:
An immersive 2D platformer Game with familiar elements of your favorite games!

Drawings:



Why it's fun:
Many of us grew up playing fun 2d platformer games, whether it was Mario or Sonic, there was always so much fun in starting up a new game and exploring the world. We think it would be very cool to be able to take a shot at one of gaming's most iconic styles in our own interpretation. In our version, we want to create a new world that hasn't been done yet, but still is familiar to

those who have come before it! Creating the controls (left/right, jump/crouch), the world (a sunny environment), and the enemies (a bomb on wheels, skeleton) will be a fun challenge, and we are eager to try this ourselves.

Early Version:
It would contain a basic level where the characters would be able to move, jump, jump over obstacles, and avoid enemies in order to reach their final destination, with lives, time, and a score system to keep track of the stats in the game. The environment would be colorful, and there would be different landscapes throughout the levels in order to make a full basic level in the 2D Platformer Game.

Shared Group Feedback:
Feedback written by Jeremy: I think this is a great project idea. I really like the drawing as it clearly shows the game that you want to create. I believe that the tools that we got from the different activities (like the one with the moving images - Flash McQueen, Mario and the other characters and breakout) should help you to get some inspiration on how to make the bomb on wheels and skeleton move and it should also help the character interact with its environment (like jump on the platforms for example).

Plan to Implement:
- Player controls: David (Date: 4/29)
- Obstacles/Enemies: David (Date: 4/29)
- Hitboxes: Luis (Date: 4/29)
- Life System: Luis (Date: 4/29)
- Time System: David (Date: 4/29)
- Score System: Luis (Date: 4/29)
- Elements/Environment: David (Date: 4/29)
- Win/Loss conditions: David (Date: 4/29)
